Cheah wins Asean award

PETALING JAYA: Sunway Group founder and chairman Tan Sri Dr Jeffrey Cheah has been recently conferred the Asean@50 Lifetime Achievement Award by the Asean-Business Advisory Council Malaysia.

The award recognises Cheah for his vision, leadership, commitment and achievements in the field of business through Sunway Group, which he has grown from a small company in Malaysia about 40 years ago to, now, a diversified construction and property conglomerate, with projects locally

and overseas.

The award also recognises Cheah's immense contributions to the fields of education and sustainability.

According to Cheah, sustainability and social responsibility has been an integral part of Sunway's business framework as it expands its presence worldwide and work towards a sustainable future.

"I hope to continue creating positive impact on our communities within Malaysia and beyond," Cheah said in a statement.
